Falco's LPGC system
The pipes packages during their packing and shipping to off shore platforms.

If you got involved in such a sea storm you'd better have your tubular well packed in reliable frames for transport and tranship

The relative lightness which is not to the prejudice of the steel cradle sturdiness, tested and certified by R.I.Na and DNV-GL for the lifting of weights up to 7 tons, by means of 4 central eyelets.

The 20" pipes packed with the frames can be handled by only two men in every step of packing and loading

22 1029W

9 5/8" casing packages during their loading and shipping to offshore platforms

Table of carried pipes by size.

Pipes sizes	Pipes per package	Pipes sizes	Pipes per package
2 3/8"	56	8 5/8"	6
2 7/8"	42	9 5/8"	6
3 1/2"	30	10 3/4"	4
4"	20	11 3/4"	4
4 1/2"	20	13 3/8"	4
5"	16	14"	4
5 1/2"	16	16"	2
6 5/8"	9	18 5/8"	2
7"	9	20"	2
7 5/8"	9	Other sizes on request
